

# Percona Managed Services for MongoDB

**24x7x365 hands-on database monitoring and management for (a lot) less than you'd think**

Percona Managed Services for MongoDB gives you the peace of mind of knowing that technical experts are monitoring and managing your databases 24x7x365. You'll free your team to focus on strategic priorities while benefiting from deep expertise across your MongoDB environments, whether they're on-premises, in the cloud, or in a hybrid setup.

Percona Managed Services for MongoDB includes:

- 24x7x365 proactive monitoring and alerting
- Automated weekly and monthly reports
- Incident management and root cause analysis (RCA)
- Robust change management
- Expert DBA hands-on support
- Named service delivery manager (SDM)
- Federated login availability

If you're running more than MongoDB, you can extend Percona Managed Services across your database environments — including PostgreSQL, MySQL; the cloud platforms of Amazon AWS, Microsoft Azure, and Google Compute Engine; and Amazon's DBaaS offering of RDS and Aurora.

## Benefits of Percona Managed Services for MongoDB

### 24x7x365 proactive monitoring and support

Proactive, hands-on monitoring and support to keep your database running at peak performance.

### Industry-best SLAs

Up to 15-minute service-level agreements

### Always-on emergency support

Around-the-clock availability to ensure problems are resolved quickly.

### Reduced costs

Our experts are an extension of your team, giving you 24x7x365 coverage without having to hire additional on-staff DBAs.

**Percona Managed Services is trusted by**
